

ePROSHOP

The eproshop software is the unique dedicated solution, both for businessmen - running a traditional activity, who want to create a new distribution channel of their goods and services, as well as for the latest established companies, which recognize the Internet as the key to success.

EproSHOP is not only the software, but also is an activation of a complex service for online shop. EproSHOP includes: visual identification, designing individual functionality of the software, as well as deployment, integration and servicing.
